

PUBLIC NOTICE

PERMIT APPLICATION: NRS #04.395

APPLICANT: State of Tennessee
Department of Transportation
Environmental Planning and Permits Division
Suite 900, J. K. Polk Bldg.
505 Deaderick Street
Nashville, TN 37243-0334
615/253-2477

LOCATION: State Industrial Access Road
Fentress County

WATERSHED DESCRIPTION: The unnamed tributary of Owens Spring Branch is within the Big South Fork watershed. The tributary is intermittent with a sand/mud substrate and a channel width of 1 – 2 feet. The existing vegetation along the stream channel consists of a mixture of trees, shrubs, and grasses.

PROJECT DESCRIPTION: The applicant proposes to construct a new access road for Micro Metals, Inc.

Station 0+15+/- (Rt.) to Sta. 0+30+/- (Rt.): Unnamed tributary to Owens Spring Branch. Existing open intermittent stream is 40 ft. in length. The applicant proposes relocation into an open channel 58 ft. in length.

Station 0+35+/- (Rt.) to Sta. 0+70+/- (Rt.): Wetlands. Applicant proposes to permanently impact (fill) 0.025 ac. of wetland.

Station 4+00+/- (Rt.) to Sta. 4+20+/- (Rt.): Wetlands. Applicant proposes to permanently impact (fill) 0.007 ac. and temporarily impact 0.006 ac. of wetland. Returning the affected area to original elevation and reseeding with hydrophilic vegetation would mitigate temporary impacts.

The applicant proposes to mitigate for 0.032 ac. of permanent wetland impacts by debiting, at a 4:1 ratio, 0.13 ac. of available credit from the Harpeth Wetland Mitigation Bank. Standard erosion control devices would be used to prevent sediment from entering flowing water. Upon completion of the work, all disturbed areas would be stabilized.

PERMIT COORDINATOR: Brian Canada, STATE OF TENNESSEE, Department of Environment and Conservation Division of Water Pollution Control, 7th Floor, L&C Annex, 401 Church Street, Nashville, Tennessee 37243-1534

USGS TOPOGRAPHIC QUADRANGLE: Grimsley, TN (115-SW).

TO WHOM IT MAY CONCERN: The application described above has been submitted for an Aquatic Resource Alteration Permit pursuant to *The Tennessee Water Quality Control Act of 1977*, T.C.A. §69-3-108.

The purpose of this notice is to advise all concerned of the proposal for which a permit is sought, and to solicit comments and information necessary to evaluate the probable impact of the activities upon the respective water resources. The decision whether to issue or deny will in part be based upon that evaluation. All factors that may be relevant to the proposals will be considered.

Persons wishing to comment on or object to the issuance of a proposed permit are invited to submit comments in writing to the Department of Environment and Conservation Division of

Water Pollution Control at the address listed above. Written statements received in this office on or before the date of expiration of the comment period thirty days from the publication date of this notice will become part of the record and will be considered in the determination. The applicant's name and permit number should be referenced.

Interested persons may also request in writing that the director of the Division hold a public hearing on any application. The request must be filed within the comment period and must indicate the interest of the person requesting it, and the reasons that the hearing is warranted. When there is sufficient public interest, the director shall hold a hearing in accordance with Rule 1200-4-7-.04(4)(f).

After consideration of comments submitted during the public comment period, the hearing record if any, and the requirements of federal and State law, the director of the Division will make determinations regarding the final action on each permit. Permit applications, supporting documentation, and related comments are available for review and/or copying.
